# VIIth International Symposium on Microsomes and Drug Oxidations

August 17 - 21, 1987    Adelaide, South Australia.

## Scientific Programme

The symposium will consist of plenary sessions and poster sessions. All free communications will be in the form of posters which will be given greater emphasis in the programme by the inclusion of chaired poster discussion sessions.

Themes for the plenary sessions include:

1. Structural and immunochemical characterisation of cytochrome P-450 isozymes.
2. Cytochrome P-450 genes and their regulation.
3. Human cytochromes P-450/oxidative drug metabolism in man.
4. Role of cytochrome P-450 in the metabolism of endogenous substrates.
5. Post oxidation enzymes.
6. Metabolic activation and cell toxicity/carcinogenicity.

## Free Communications

As indicated above, all free communications will be in the form of poster sessions and poster discussion sessions. Abstracts for posters will be required by March 6, 1987.

## Language

The official language of the meeting will be English.

## Social Events

There will be an Opening Reception and one afternoon during the meeting will be set aside for a conference lunch/wine tasting at a local winery.

## About Adelaide

Adelaide is a city of just over a million people, a city which cherishes its relaxed way of life as much as its parkland setting, gracious stone architecture and Mediterranean climate of warm dry days and clear nights.

A stroll through the city's wide tree-lined streets will introduce you to a blend of old and new, a place of charm and style.

South Australia has 3,700 kilometres of coastline, changing from majestic cliffs to long, secluded sandy beaches.

This is Australia's wine cellar: almost two-thirds of Australia's wine is produced in South Australia, and the local wineries provide an informal and intimate atmosphere in which to taste their famous crisp dry whites and full-bodied reds.

We can assure you of a warm personal welcome to this, Australia's friendliest capital city.
